

PP MULTI-FILAMENT MANUFACTURER

OUTDOOR CHAIR

AVIENT SOLUTION

Smartbatch™ Combination Colorants & Additives

WHY AVIENT?

- Offered a UV stabilizer for PP multi-filament yarn
- Delivered good light fastness
- Provided cost effectiveness by combining colorant and UV additive solutions
- Had in-house Q-Lab UV (QUV) tester to meet strict customer standards

KEY REQUIREMENTS

- Resist UV light degradation in U.S. & European climates for an extended period
- Maintain color stability and resist brittleness for a minimum of 3 years
- Reliable supplier with good product quality and stable supply
