

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
US OSHA Hazard Communication Standard 2024 (29 CFR 1910.1200)

Revision date: 24-08-2026

Revision Number: 1

## 1. Identification

### Product identifier

Product Name AMOSORB™ 4020R

### Other means of identification

Product Code CC10332195

Material number(s) CC10332195B1;CC10332195B2;CC10332195D7;CC10332195DF;CC10332195F1;CC10332195F5

Synonyms None

### Recommended use of the chemical and restrictions on use

Recommended use For industrial use only

Restrictions on use None.

### Details of the supplier of the safety data sheet

#### Supplier Address

Avient Corporation  
33587 Walker Road, Avon Lake, OH 44012

E-mail address regulatoryservices@avient.com

### Emergency telephone number

Company Phone Number 1 (440) 930-1000  
or 1 (844) 4 AVIENT

24 Hour Emergency Phone Number CHEMTREC 1-800-424-9300 (24hrs for spill, leak, fire, exposure or accident)

Emergency Telephone No information available

## 2. Hazard(s) identification

### Classification of the substance or mixture

This product is not considered hazardous by the US OSHA Hazard Communication Standard 2024 (29 CFR 1910.1200).

### Hazards not otherwise classified (HNOC)

Not applicable.

### Label elements

No label elements required

### Hazard statements

No hazard statements required

**Hazards classified under paragraph (d)(1)(ii) of 1910.1200**

No information available.

**Other information**

No information available.

**3. Composition/information on ingredients****Substance**

Not applicable.

**Mixture**

| Chemical name                                    | CAS No.    | Weight-% | Trade secret / Unique identifier |
|--------------------------------------------------|------------|----------|----------------------------------|
| Octadecanoic acid, cobalt salt                   | 13586-84-0 | 1 - 3%   | *                                |
| 1H,3H-Benzo[1,2-c:4,5-c']difuran-1,3,5,7-tetrone | 89-32-7    | 0.1 - 1% | *                                |

**4. First-aid measures****Description of first aid measures****General advice**

Show this safety data sheet to the doctor in attendance. IF exposed or concerned: Get medical advice and attention.

**Inhalation**

May cause allergic respiratory reaction. If breathing has stopped, give artificial respiration. Get medical attention immediately. Remove to fresh air. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation.

**Eye contact**

In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists: Get medical advice and attention.

**Skin contact**

Wash with soap and water. May cause an allergic skin reaction. In the case of skin irritation or allergic reactions see a physician.

**Ingestion**

May produce an allergic reaction. Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Get immediate medical attention.

**Self-protection of the first aider**

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid contact with skin, eyes or clothing. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Use personal protective equipment as required. See section 8 for more information.

**Most important symptoms and effects, both acute and delayed****Symptoms**

May cause allergy or asthma symptoms or breathing difficulties if inhaled. Coughing and/ or wheezing. Itching. Rashes. Hives. Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing.

**Effects of Exposure**

May cause cancer. Causes damage to organs through prolonged or repeated exposure.

**Indication of any immediate medical attention and special treatment needed****Note to physicians**

May cause sensitization in susceptible persons. Treat symptomatically.

## 5. Fire-fighting measures

|                                                                       |                                                                                                                                                             |
|-----------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable Extinguishing Media</b>                                   | Dry chemical, CO <sub>2</sub> , water spray or regular foam.                                                                                                |
| <b>Unsuitable extinguishing media</b>                                 | Do not use water jetstream.                                                                                                                                 |
| <b>Specific hazards arising from the chemical</b>                     | Product is or contains a sensitizer. May cause sensitization by inhalation. May cause sensitization by skin contact.                                        |
| <b>Hazardous combustion products</b>                                  | Decomposition products can include and are not limited to: Carbon monoxide. Carbon dioxide (CO <sub>2</sub> ). Nitrogen oxides (NO <sub>x</sub> ). Ammonia. |
| <b>Explosion data</b>                                                 |                                                                                                                                                             |
| <b>Sensitivity to mechanical impact</b>                               | None.                                                                                                                                                       |
| <b>Sensitivity to static discharge</b>                                | None.                                                                                                                                                       |
| <b>Special protective equipment and precautions for fire-fighters</b> | Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protective equipment.                          |

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

|                                 |                                                                                                                                                                                                          |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>     | Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. |
| <b>Other information</b>        | Refer to protective measures listed in Sections 7 and 8.                                                                                                                                                 |
| <b>For emergency responders</b> | Use personal protection recommended in Section 8.                                                                                                                                                        |

### Methods and material for containment and cleaning up

|                                        |                                                                                      |
|----------------------------------------|--------------------------------------------------------------------------------------|
| <b>Methods for containment</b>         | Prevent further leakage or spillage if safe to do so.                                |
| <b>Methods for cleaning up</b>         | Take up mechanically, placing in appropriate containers for disposal.                |
| <b>Prevention of secondary hazards</b> | Clean contaminated objects and areas thoroughly observing environmental regulations. |
| <b>Reference to other sections</b>     | See section 8 for more information. See section 13 for more information.             |

## 7. Handling and storage

### Precautions for safe handling

|                                       |                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Advice on safe handling</b>        | Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse. |
| <b>General hygiene considerations</b> | Avoid contact with skin, eyes or clothing. Wear protective gloves, eye protection and face protection. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and immediately after handling the product.             |

### Conditions for safe storage, including any incompatibilities

|                           |                                                                                           |
|---------------------------|-------------------------------------------------------------------------------------------|
| <b>Storage Conditions</b> | Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. |
|---------------------------|-------------------------------------------------------------------------------------------|

Keep out of the reach of children.

## 8. Exposure controls/personal protection

### Control Parameters

**Exposure Limits** This product, as supplied, contains materials that do not have reportable occupational exposure limits or are not subject to the reporting requirements of the local jurisdiction.

**Biological occupational exposure limits** This product, as supplied, contains materials that do not have reportable biological exposure limits or are not subject to the reporting requirements of the local jurisdiction.

### Appropriate engineering controls

**Engineering controls** Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

### Individual protection measures, such as personal protective equipment

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Hand protection** Wear suitable gloves.

**Skin and body protection** Wear suitable protective clothing.

**Respiratory protection** Use appropriate respiratory protection. Consult with an industrial hygienist to determine the appropriate respiratory protection for your specific use of this material.

**Environmental exposure controls** Local authorities should be advised if significant spillages cannot be contained.

## 9. Physical and chemical properties

### Information on basic physical and chemical properties

**Appearance** Recrystallized Pellet  
**Physical state** Solid  
**Color** colorless  
**Odor (includes odor threshold)** Slight

| <u>Property</u>                                                  | <u>Values</u>     | <u>Remarks • Method</u> |
|------------------------------------------------------------------|-------------------|-------------------------|
| <b>Melting point / freezing point</b>                            | No data available | None known              |
| <b>Boiling point (or initial boiling point or boiling range)</b> | No data available | None known              |
| <b>Flammability</b>                                              | No data available | None known              |
| <b>Flammability Limit in Air</b>                                 |                   | None known              |
| <b>Upper flammability or explosive limits</b>                    | No data available |                         |
| <b>Lower flammability or explosive limits</b>                    | No data available |                         |
| <b>Flash point</b>                                               | No data available | None known              |
| <b>Autoignition temperature</b>                                  | No data available | None known              |
| <b>Decomposition temperature</b>                                 | No data available | None known              |
| <b>SADT (°C)</b>                                                 | No data available | None known              |
| <b>pH</b>                                                        | No data available | None known              |
| <b>pH (as aqueous solution)</b>                                  | No data available | None known              |
| <b>Kinematic viscosity</b>                                       | No data available | None known              |
| <b>Dynamic viscosity</b>                                         | No data available | None known              |
| <b>Solubility</b>                                                | No data available | None known              |
| <b>Water solubility</b>                                          | No data available | None known              |

|                                                   |                   |            |
|---------------------------------------------------|-------------------|------------|
| Partition coefficient n-octanol/water (log value) | No data available | None known |
| Vapor pressure (includes evaporation rate)        | No data available | None known |
| Evaporation rate                                  | No data available | None known |
| Density and/or relative density                   | No data available | None known |
| Bulk density                                      | No data available |            |
| Liquid Density                                    | No data available |            |
| Relative vapor density                            | No data available | None known |
| Particle characteristics                          |                   | None known |
| Particle Size                                     | No data available |            |
| Particle Size Distribution                        | No data available |            |

Other information**10. Stability and reactivity**

|                                    |                                                                                                                                                                                          |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | No information available.                                                                                                                                                                |
| Chemical stability                 | Stable under recommended storage conditions.                                                                                                                                             |
| Possibility of hazardous reactions | None under normal processing.                                                                                                                                                            |
| Conditions to avoid                | Keep away from open flames, hot surfaces and sources of ignition. static discharge (electrostatic discharge). Storage near to reactive materials. Dust formation. Protect from moisture. |
| Incompatible materials             | Strong oxidizing agents, strong acids, and strong bases.                                                                                                                                 |
| Hazardous decomposition products   | None under normal use conditions.                                                                                                                                                        |

**11. Toxicological information**

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

Information on likely routes of exposure**Product Information**

|              |                                                                                                                                                                                                                             |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation   | Specific test data for the substance or mixture is not available. May cause sensitization in susceptible persons. (based on components).                                                                                    |
| Eye contact  | Specific test data for the substance or mixture is not available.                                                                                                                                                           |
| Skin contact | Specific test data for the substance or mixture is not available. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. (based on components). May cause sensitization by skin contact. |
| Ingestion    | Specific test data for the substance or mixture is not available. May cause additional effects as listed under "Inhalation".                                                                                                |

Symptoms related to the physical, chemical and toxicological characteristics

|                |                                                                                                                                                                                                                                                                                                                       |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Symptoms       | May cause allergy or asthma symptoms or breathing difficulties if inhaled. Coughing and/ or wheezing. Itching. Rashes. Hives. Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain, or flushing. |
| Acute toxicity | Based on available data, the classification criteria are not met.                                                                                                                                                                                                                                                     |

**Numerical measures of toxicity** No information available.

#### Component Information

| Chemical name                                              | Oral LD50          | Dermal LD50        | Inhalation LC50 |
|------------------------------------------------------------|--------------------|--------------------|-----------------|
| 1H,3H-Benzo[1,2-c:4,5-c']difuran-1,3,5,7-tetrone (89-32-7) | 2250 mg/kg ( Rat ) | 2000 mg/kg ( Rat ) | -               |

#### **Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Skin corrosion/irritation** Based on available data, the classification criteria are not met.

**Serious eye damage/eye irritation** Based on available data, the classification criteria are not met.

**Respiratory or skin sensitization** May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction.

**Germ cell mutagenicity** Based on available data, the classification criteria are not met.

**Carcinogenicity** Contains a known or suspected carcinogen. Classification based on data available for ingredients. May cause cancer.

The table below indicates whether each agency has listed any ingredient as a carcinogen.

| Chemical name                               | ACGIH | IARC     | NTP                    | OSHA |
|---------------------------------------------|-------|----------|------------------------|------|
| Octadecanoic acid, cobalt salt (13586-84-0) | -     | Group 2B | Reasonably Anticipated | X    |

**Reproductive toxicity** Based on available data, the classification criteria are not met.

**STOT - single exposure** Based on available data, the classification criteria are not met.

**STOT - repeated exposure** Causes damage to organs through prolonged or repeated exposure.

**Aspiration hazard** No information available.

**Other adverse effects** No information available.

**Interactive effects** No information available.

## 12. Ecological information

**Ecotoxicity** Based on available data, the classification criteria are not met.

**Persistence and degradability** No information available.

**Bioaccumulative potential** No information available.

Mobility in soil No information available.

Other adverse effects No information available.

### 13. Disposal considerations

#### Disposal methods

**Waste from residues/unused products** Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

**California Hazardous Waste Status** This product contains one or more substances that are listed with the State of California as a hazardous waste.

### 14. Transport information

DOT Not regulated

TDG Not regulated

MEX Not regulated

ICAO (air) Not regulated

IATA Not regulated

IMDG Not regulated

### 15. Regulatory information

#### International Regulations

**The Rotterdam Convention** Not applicable

#### International Inventories

#### US Federal Regulations

##### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

##### **SARA 311/312 Hazard Categories**

Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

**CWA (Clean Water Act)**

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

**CAA (Clean Air Act)**

This product does not contain any substances regulated as pollutants pursuant to Clean Air Act (CAA).

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

**US State Regulations****California Proposition 65**

This product does not contain any Proposition 65 chemicals

**U.S. State Right-to-Know Regulations**

| Chemical name                                  | New Jersey | Massachusetts | Pennsylvania |
